

**NATO SUBMARINE ESCAPE EQUIPMENT (SEE) USERS PANEL MEETING 2009
INDUSTRY RECEPTION**

THURSDAY 22 JANUARY 2009

MANY THANKS TO JOS BOGAERT AND RICHARD HERBEN OF THE ROYAL NETHERLANDS NAVY FOR THEIR ASSISTANCE DURING THE CONFERENCE; THEY MADE EVERYTHING VERY EASY AND ENJOYABLE.

Industry sponsors of this event enjoyed the opportunity of spending time with delegates in Amsterdam as the conference neared its end. Two days were dedicated to presentations by the participating companies; these were then copied to individual flash drives and given to delegates for future reference.

The Industry Reception was held over three hours and it was acknowledged that it was both enjoyable and useful. This could be the new format for future SEE users panel conferences.

Please visit the ISMERLO website for the NATO update.
